1. Paragraph 3 of N.I.A. Directive No. — charges the Director of Central Intelligence with establishing a program to be approved by the N.I.A. which will provide for the factors enumerated in paragraph 2 thereof. Paragraph 2^c specifies "production and dissemination of the intelligence" as one of the essential factors of the program which the Director of Central Intelligence is required to establish and direct.

2. Based upon his studies in this matter, the Director of Central Intelligence concludes that:

a. In accordance with paragraph 6 of the President's letter of 22 January 1946, the intelligence agencies of the several departments represented in the N.I.A. are required to evaluate, correlate and disseminate ^{departmental} intelligence;

b. The intelligence requirements of the several departments overlap and there is consequent duplication in the research efforts to meet these requirements;

c. The research activities of the ~~departmental intelligence agencies~~ ^{intelligence agencies subject to NIA coordination} should be coordinated to eliminate undesirable duplication; *OK*

The coordinating functions of the Director of Central Intelligence should be entirely separate and apart from ~~any~~ operating functions at present assigned, or in future to be assigned, to the Director; and
